

## WaterMaker WM-500

Atmospheric Water Generator

### WHEN YOU NEED TO MAKE MORE WATER

When you need more water, this machine delivers. Up to 100 people can get a basic ration of 5 liters of drinking water daily. Equipped with a large stainless steel tank, in-built UV filters and an in-line mineraliser, it will give many years of low maintenance performance in any environment.

All specifications and technical data relating to all watermaker machines and products as listed above are based on average mean temperatures of between 77 – 90 degrees Fahrenheit (25 – 32 degrees Celsius), and with relative humidity conditions of between 70% - 75% are also subject to change without notice. Final detailed specifications will be supplied and confirmed at the time of receipt and confirmation of order.

**Mobile units are also available.**

WM 500	
Rated Water production capacity in 24 hrs	500 litres
Working Conditions for rated capacity	25° - 32°C & 70 - 75% RH
Actual Size (H x W x D) in cm.	168.5 x 145 x 81.5
Size with packing (H x W x D)	185 x 160 x 88
Net Weight in kg.	620 Kg
Gross weight in kg.	690 Kg
Power Consumption in kW	10
Power Supply ( Volts, frequency, phase)	230/ 50/ single
Refrigerant	R 22
Storage tank capacity in liters	250 litres
Noise level in dB	69 dB
No. of UVs in the machine	3
Air flow rate (cfm)	5200

### Electronic controls in all models are microprocessor based
